

To keep hair beautiful and maintain the results between retexturizing services, we recommend clients use Nano-Complex products to cleanse and condition their hair.

Nano-Complex[®] Keratin Gold Shampoo

The right shampoo is key to long-lasting results. Our shampoo is formulated to nourish the hair with every time shampoo. Nano complex Keratin Gold shampoo is free of sulfites and parabens, extra gentle and color safe. It features 24K Nano Gold Molecules.

Nano-Complex[®] Keratin Gold Conditioning Masque

An advanced restructuring masque for all hair types. It features 24K Nano Gold Molecules, which carry the keratin proteins and amino acids deeper and faster into the hair's cortex. Rich in argan oil, palm oil and silk proteins, which nourish, nurture and repair and strengthen the hair.

Nano-Complex[®] Rejuvenating Hair Treatment

So scientific, each treatment comes in a single-dose syringe to rejuvenate hair instantly. The 24K Nano Gold Molecules and natural conditioners build strength and shine. Use one from the five-pack as an in-salon treatment, then send your clients home with the remaining four to use once a week til their next salon visit.

Beautiful hair is easy to style, color and cut. Not every client has perfect, beautiful hair.

For the clients who have curly or frizzy hair, many salons will not attempt retexturizing their hair. And why should they? In the past, harsh chemicals have left hair and scalp damaged. The toxic formaldehyde fumes for product application require wearing a mask.

That was yesterday. Today, **Keratin Gold Retexturizing Treatment** retexturizes the hair easily and beautifully and conditions the hair for maximum shine, manageability and health. All with a formula that is free of formaldehyde, aldehyde, thio, sodium hydroxide, carcinogens, lye or ether. In other words, no harsh fumes and no mask needed. Gentle enough to be used directly on the scalp for maximum coverage.

Using the building blocks of a natural keratin protein based formula, **Keratin Gold Retexturizing Treatment** uses a unique blend of Nano-Complex amino acids, natural polymers and pure 24K Nano Gold Molecules to retexturize, straighten and condition. Traditional relaxers break the hair's disulfide bonds. **Keratin Gold Retexturizing Treatment** builds the hair and conditions.

No matter the condition of the hair — virgin, tinted, bleached, highlighted, relaxed, multicultural and severely damaged — you can now provide retexturizing services leaving the hair in maximum condition and shine.

Simply by using **Keratin Gold Retexturizing Treatment**, you can grow your revenues by 30% in new services. More importantly, you can now remedy your client's challenging hair, retain their loyalty and benefit from word-of-mouth referrals.

Keratin Gold Retexturizing Treatment. Relax... Now, it's easy.

Before

Nano-Complex Keratin Gold Retexturizing Treatment

After

- Free of formaldehyde, aldehyde, thio, sodium hydroxide, cysteine, carcinogens, lye and ether and other toxic ingredients currently found in most popular retexturizers.
- Controls and improves texture using our proprietary Nano-Complex, featuring natural, safe, food-grade ingredients.
- Leaves the hair in superior condition. The special blend of amino acids, natural polymers and pure 24K Nano Gold Molecules nourish and repairs the hair.
- Results last about 3 months on chemically treated hair, 2 months on virgin hair.
- Releases curls and frizz on average 70% on chemically treated hair and 50% on virgin hair.
- Grows out naturally with no line of demarcation.
- Increases your revenues by an average of 30%, according to salons currently using the Nano-Complex system.
- Developed by two salon-owner stylists, who researched to provide a safe and effective alternative to retexturizers with formaldehyde or toxic chemicals in their formulas. As a result, they created the professional Nano-Complex **Keratin Gold Retexturizing Treatment**.
- While Nano-Complex **Keratin Gold Retexturizing Treatment** is a natural, we recommend you have your pregnant clients consult with their physicians before performing the service on them.
